Use this form to move the whole balance of your other super into your Essential Super account.

Things to consider before you consolidate

Before you make a decision to consolidate your super, you should:

- Compare the costs, fees, risks and benefits of your other super funds against Essential Super.
- You should also consider potential costs for withdrawing from other super funds, as well as any investment or tax implications.
- If you want to claim a tax deduction for personal super contributions, you must lodge a notice of intent to claim a tax deduction with your original fund, before you consolidate your super into another fund.

Information about insurance

If the account has insurance cover attached, before you make a decision to consolidate to your Essential Super account consider the following:

- You may lose your insurance cover, including cover for any existing illness, injury or condition by proceeding with the transfer of these super funds to Essential Super.
- Any insurance that may be provided with your Essential Super account will not be exactly the same as the cover you have with other super accounts. For example, there will be instances where you may not be covered for pre-existing conditions with insurance in Essential Super.
- We recommend that you speak with your other fund or a financial adviser about how your insurance cover will be affected if you close your account.

Any advice is general advice only. It does not take your personal objectives, financial or taxation situation or other needs into account. Before acting, you should consider the appropriateness of the advice, having regard to your objectives, financial situation and needs and obtain and consider the Product Disclosure Statement and Reference Guides. If you need advice on your personal circumstances, please talk to a financial adviser.
